NACC Phichit joins hands with Ban Bung SAO to build transparency based on good governance

The Office of the National Anti-Corruption Commission's Phichit Provincial Office (NACC Phichit Office) collaborated with the Ban Bung Subdistrict Administrative Organisation in a training project to strengthen organisational transparency based on good governance principles.

On April 3, 2026, Mr. Warapong Intamong, Director of the NACC Phichit Office, assigned Ms. Thanaporn Taengchan, a senior anti-corruption officer, to be a lecturer in the project to strengthen ethics for officials of the Ban Bung Subdistrict Administrative Organisation.

The training topic was "Ethical Standards and Code of Ethics for Local Administration Employees, Administrators, and Members." The activity was held at the meeting room of the Ban Bung Subdistrict Administrative Organization, Mueang Phichit District, Phichit Province.

The focus was on enhancing knowledge and understanding of ethical conduct, maintaining honesty and integrity, and distinguishing between personal and public interests to enable local executives and officials to perform their duties correctly according to the principles of good governance.

The training also included a workshop with 50 participants divided into groups for brainstorming sessions. These sessions focused on corruption risk assessment and collaboratively defining "Do & Don't" guidelines for the organisation.
